

HYPERION IS **READY NOW** TO HELP DRIVE
YOUR DIGITAL TRANSFORMATION

HYPERION SYSTEMS ENGINEERING

ENGINEERING A BETTER WORLD

SAFE, EFFICIENT, SUSTAINABLE

WHO WE ARE

A Privately held, globally operating technology and engineering group formed in 1993. Hyperion gained world class market reputation and global clientele. Hyperion provides engineering advisory and consulting services, and implements advanced industrial IT/OT solutions in the energy, process and discrete manufacturing industries.

RESOURCE AND IDENTITY

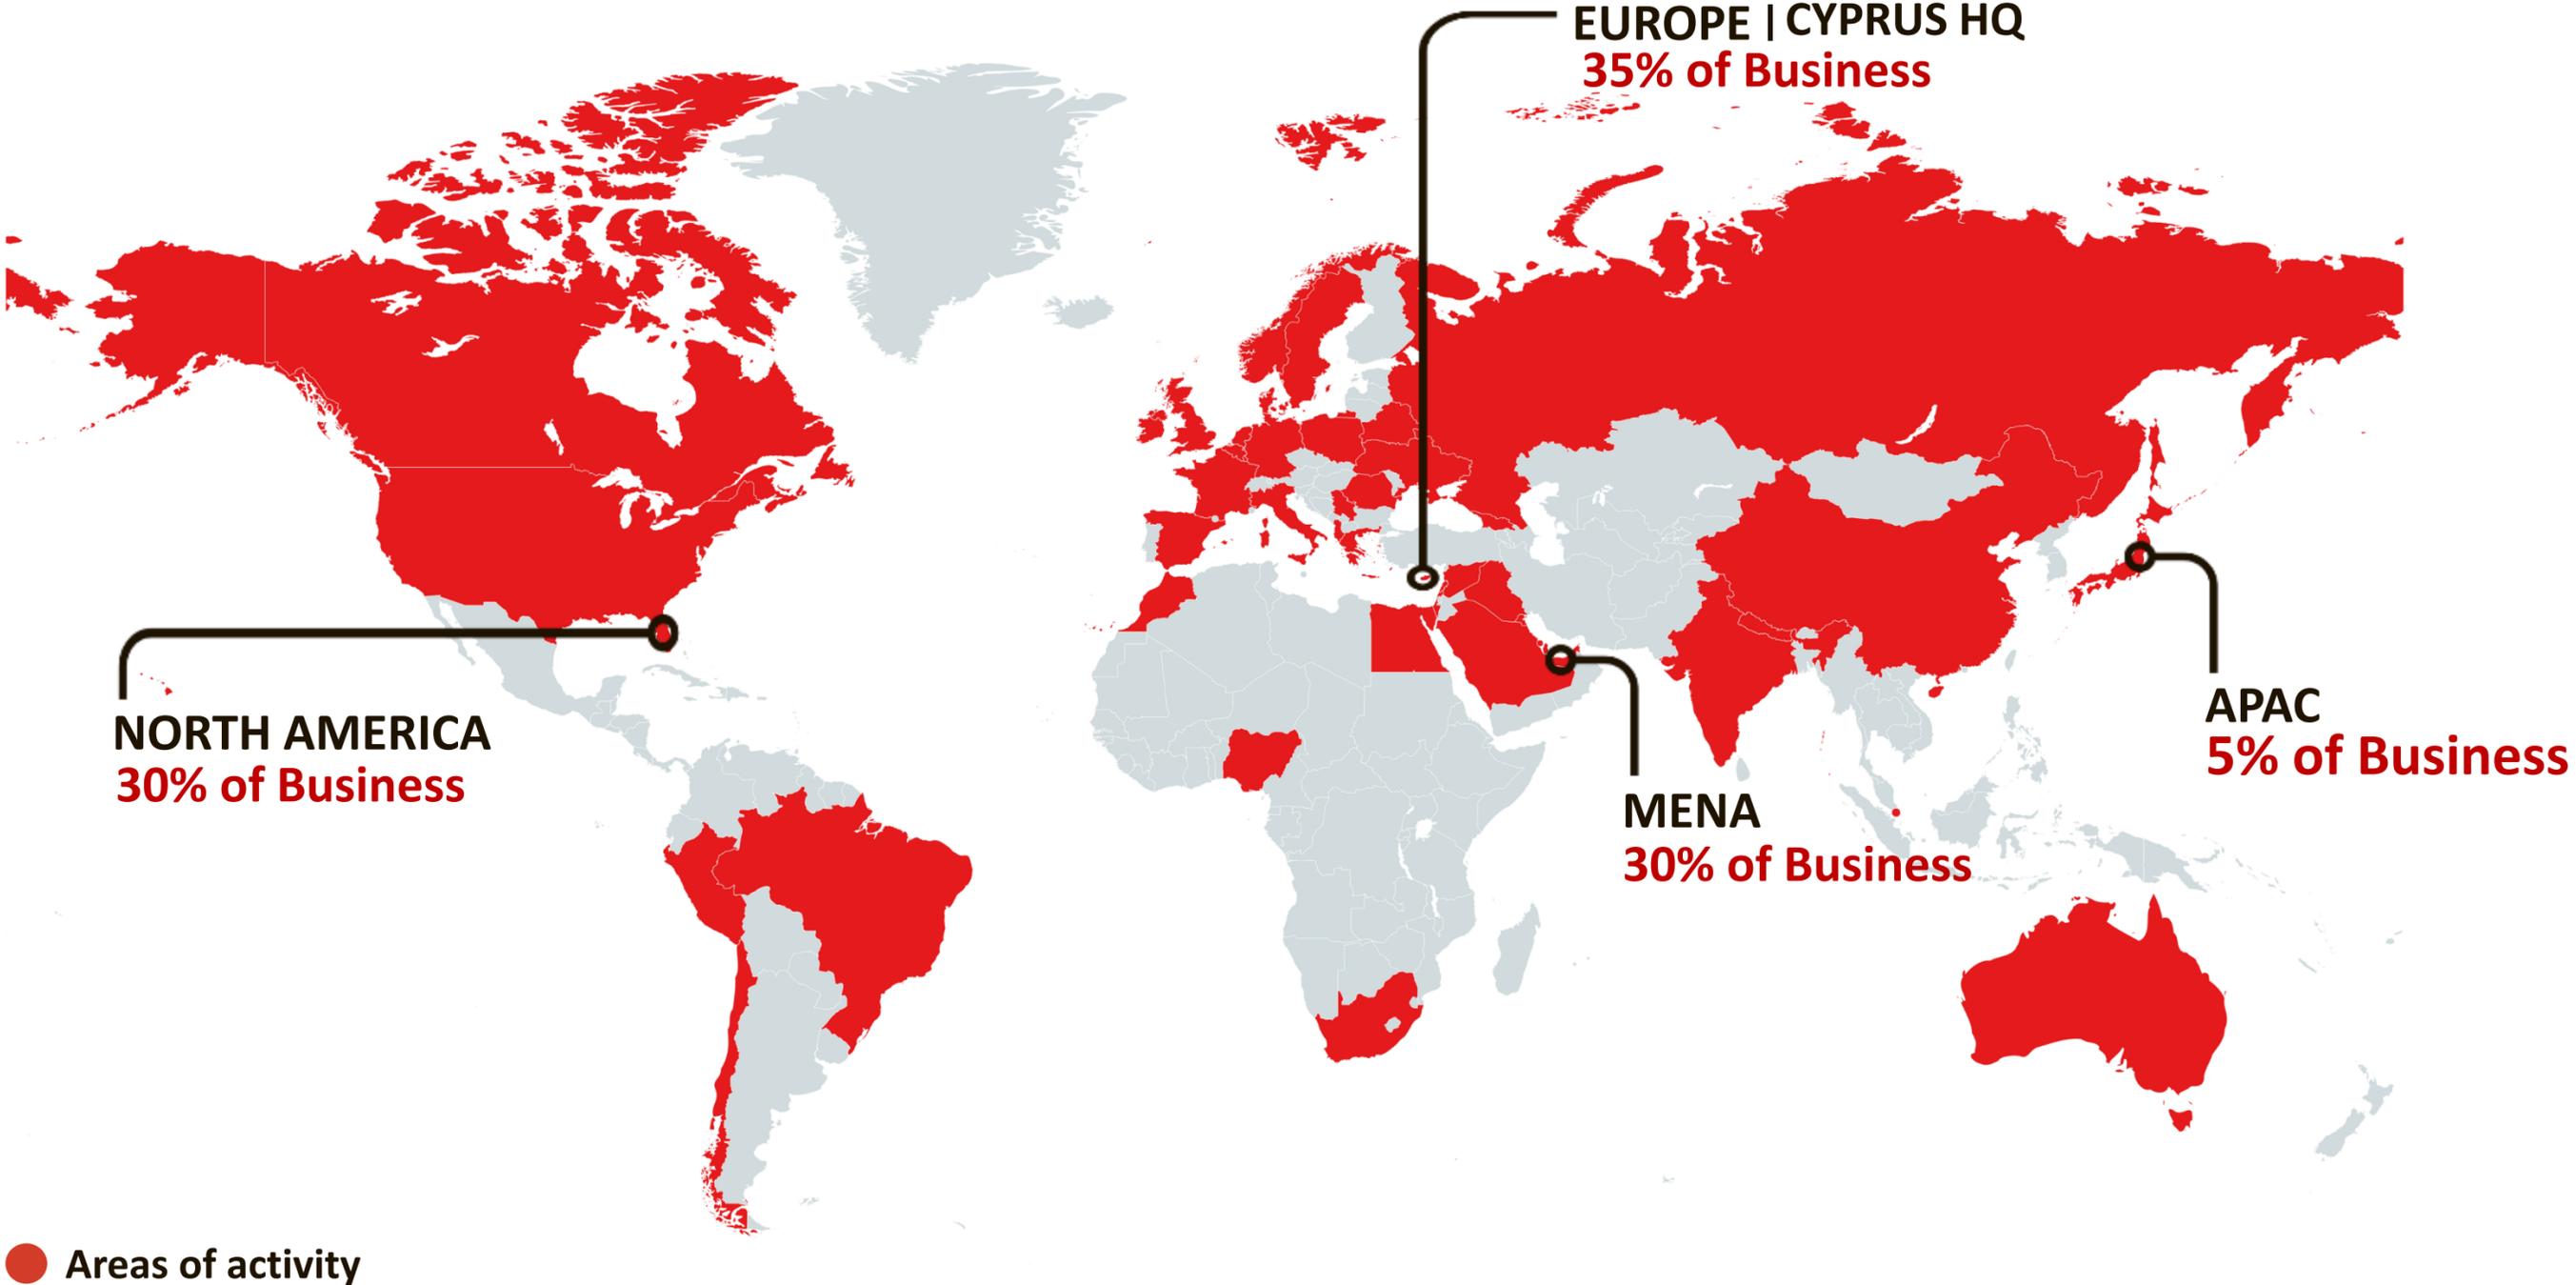

Core team of professionals, many with postgraduate qualifications and considerable industrial experience. Extensive network of associate engineers and consultants that increase the ability to meet capacity, domain and specialized expertise constraints.

WORLDWIDE CUSTOMER BASE

A GLOBAL COMPANY

GLOBAL FOOTPRINT, LOCAL DELIVERY

THREE DECADES OF APPLYING DIGITAL TECHNOLOGIES IN THE PROCESS INDUSTRY AND DISCRETE MANUFACTURING

INNOVATING ENERGY, DRIVING EFFICIENCY

50+
COUNTRIES
reach

Enterprise Collaboration

- Single Version of the Truth
- Increased Efficiency
- Streamlined Decisions
- Cyber Secure

200+
CUSTOMERS
served

Peak Process Performance

- Unit & Site Level Control Performance
- Unit to Enterprise Level Economics

500+
PROCESS SYSTEMS ENGINEERING
projects since 1993

Integrated Reliability Management

- Predictive Maintenance
- Embedded Expertise

Intelligent Digital Workforce

- Staff Competency
- Worker Productivity
- Remote Expertise
- Collaboration

DOMAIN INDUSTRY EXPERTISE

Our experts and engineers are always committed to understanding **Strategic** and **Operational Goals** and setting every project, whether a point solution or a large digital transformation initiative, for success with **measurable results** and **clear ROI**.

OUR IT/OT SERVICES FOOTPRINT OVER THE YEARS

BY SOLUTION AREA

BY GEOGRAPHY

OUR CAPABILITIES

FROM STRATEGY TO EXECUTION

Strategic Consulting

Guidance for Program Success

- Understand organizational and stakeholders' business objectives
- Business case development, set expectations, critical success factors
- Budget development
- Roadmapping, milestones and metrics
- Executive workshops

Technology Audits & Planning

Foundation for Growth

- IT/OT FEED studies
- Technology audits to assess infrastructure and enhance system performance
- Topology and redundancy IT architecture studies to ensure reliability
- Conceptual and technical workshops for client teams
- Change management

Software Implementation

Solutions for Real-Time Control & Optimization

- Advanced automation control systems
- Real-Time monitoring and reporting
- MES, MOM, Production Accounting & Batch Tracking
- Digital twins for process simulation & optimization
- Production planning, scheduling & blending optimization
- Primary & secondary hydrocarbon distribution optimization
- AI enabled Asset Performance Management
- System integration

Ongoing Support & Maintenance

Sustaining Operational Excellence

- System upgrades and migrations, ongoing application and software maintenance
- End-user and system administration training
- Long-term support services, including troubleshooting and performance optimization for continued operational success
- Remote monitoring and proactive issue resolution to prevent system downtime

OUR TEAM

Global team of digitally-enabled business consultants, strategists

- Digital and tech-savvy business consultants from the Technology Advantage and Energy practices
- Focus on Business Impact
- Technical domain industry knowledge
- Experts in change management

Global team of data scientists and analytics experts

- Data scientists, engineers, analysts
- Best in class
- Advanced Data Analytics
- On the job enablement of client teams

Global team of tech & digital experts, architects and engineers

- Tech/digital experts, architects & engineers
- Tech architecture, design & implementation
- IT legacy and digital integration & solutions

Global team of digital business builders

- Specialists: entrepreneurs, designers, product managers and engineers
- Corporate venture capital

**DIGITAL TRANSFORMATION
IMPERATIVE IS
ACCELERATING ON A
GLOBAL SCALE**

**COMPANIES KNOW THEY
NEED TO ACT**

**BUT THEY CAN'T
DO IT ALONE**

85%

of CEOs accelerated digital initiatives, most can't articulate their overall strategy and progress beyond that they made a tech investment¹

At Hyperion we can align strategy and drive digital transformation

+87.5%

of digital transformation (projects) failing to meet their original objectives²

At Hyperion we can partner with you for Right-First-Time approach

90%

of all organizations are currently undergoing some kind of digital transformation³

Hyperion is the trusted partner of choice for your success

What are our customers looking for

1. Deloitte, A new language for digital transformation – Apr 2023
2. HBR Digital transformation is not about technologies – Sep 2022
3. McKinsey, What is digital transformation – Aug 2024

OUR CONVICTION: DIGITAL SUCCESS IS A TRUE BUSINESS TRANSFORMATION

10% Algorithms

20% Technology - IT

70% Business Transformation

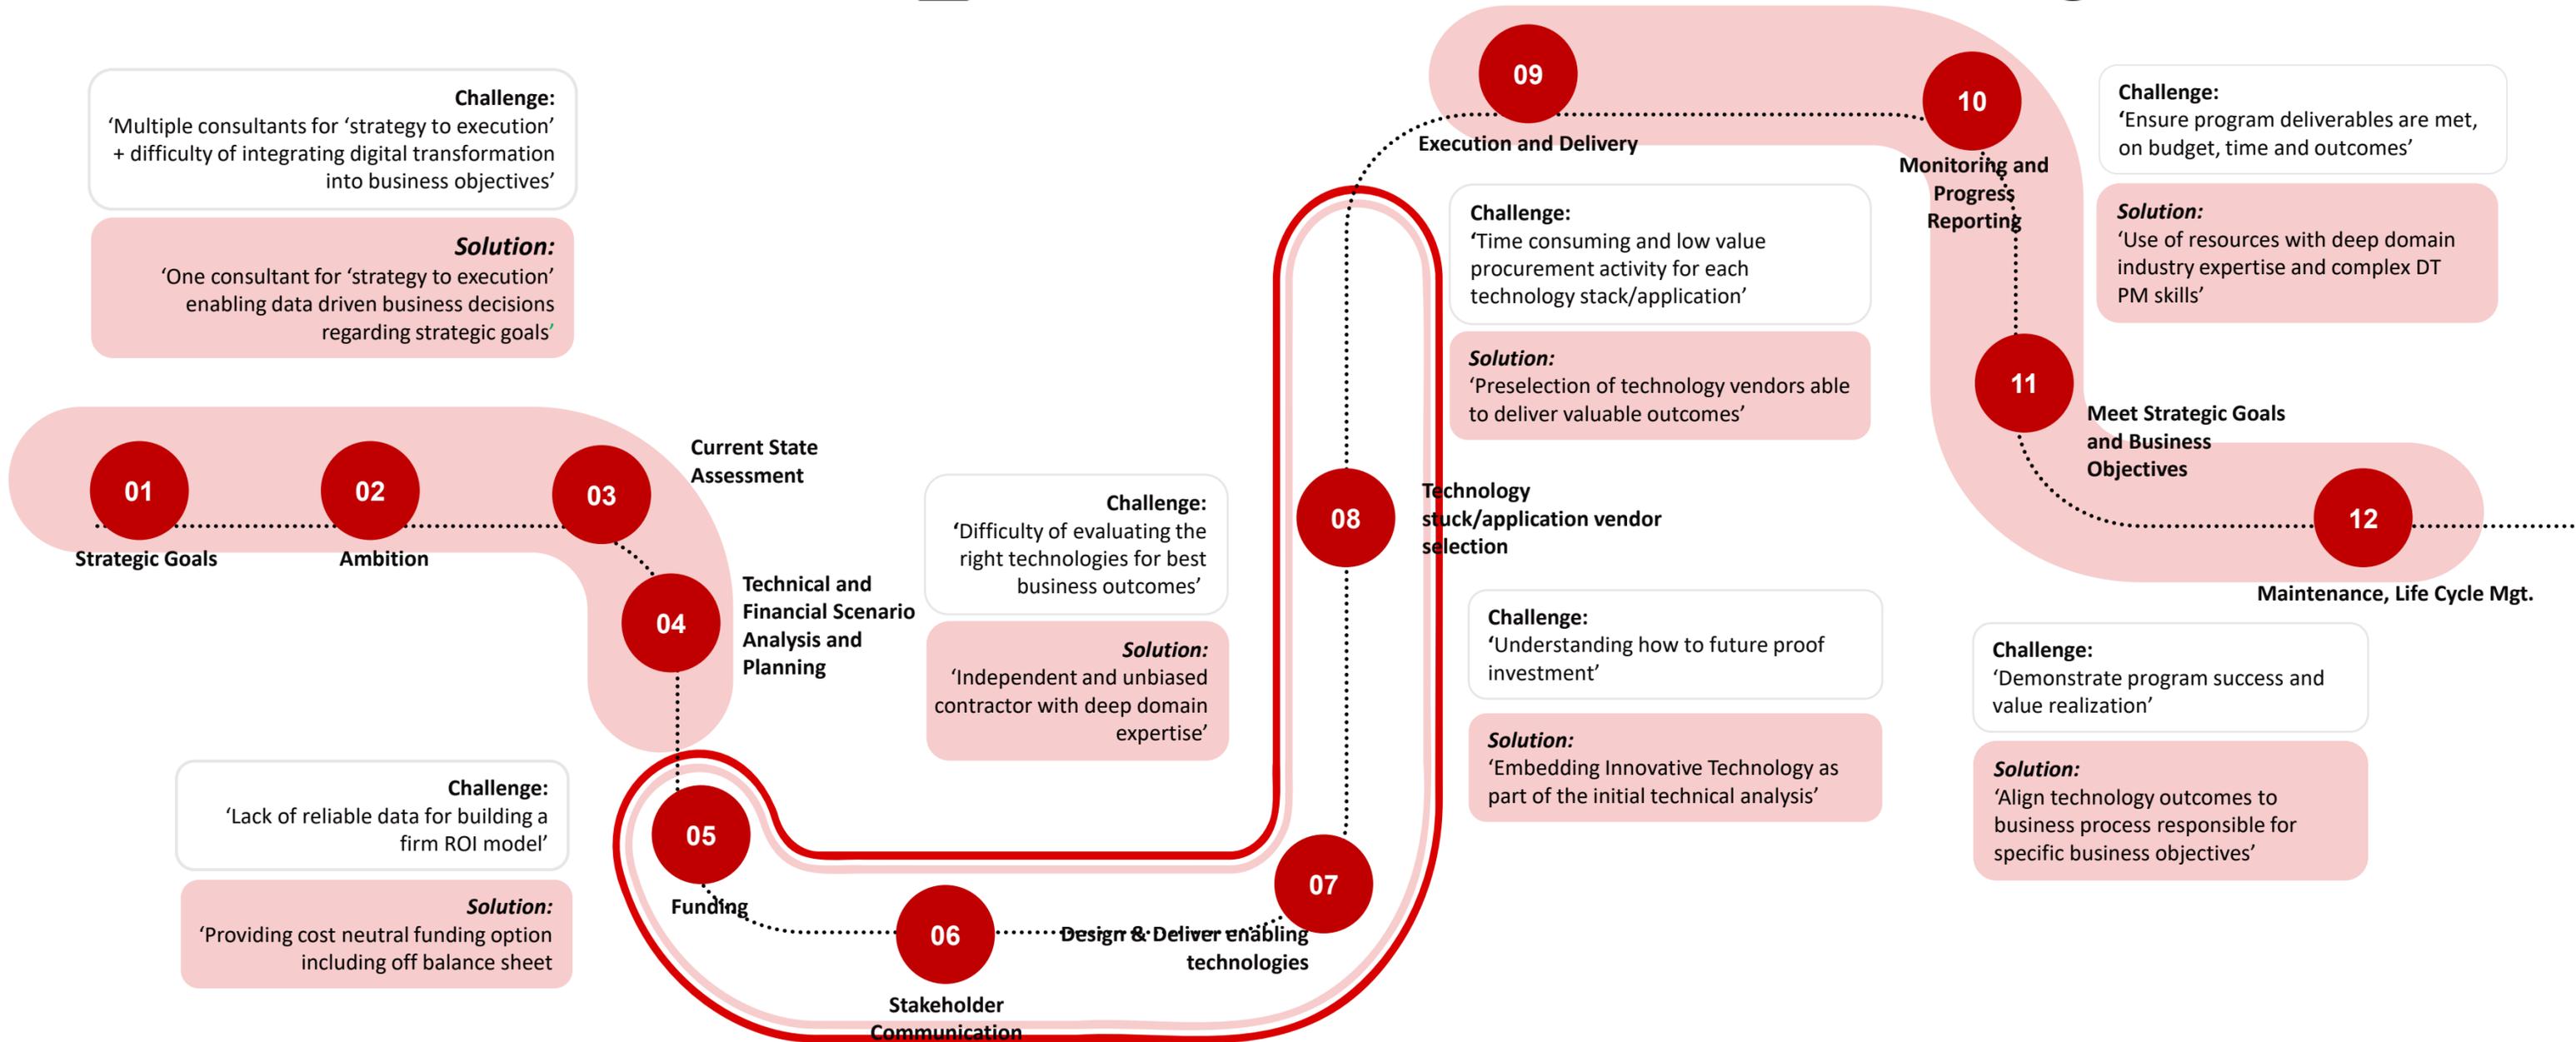

OVERCOMING CHALLENGES WITH A HOLLISTIC APPROACH END-TO-END

UNDERSTAND

PLAN

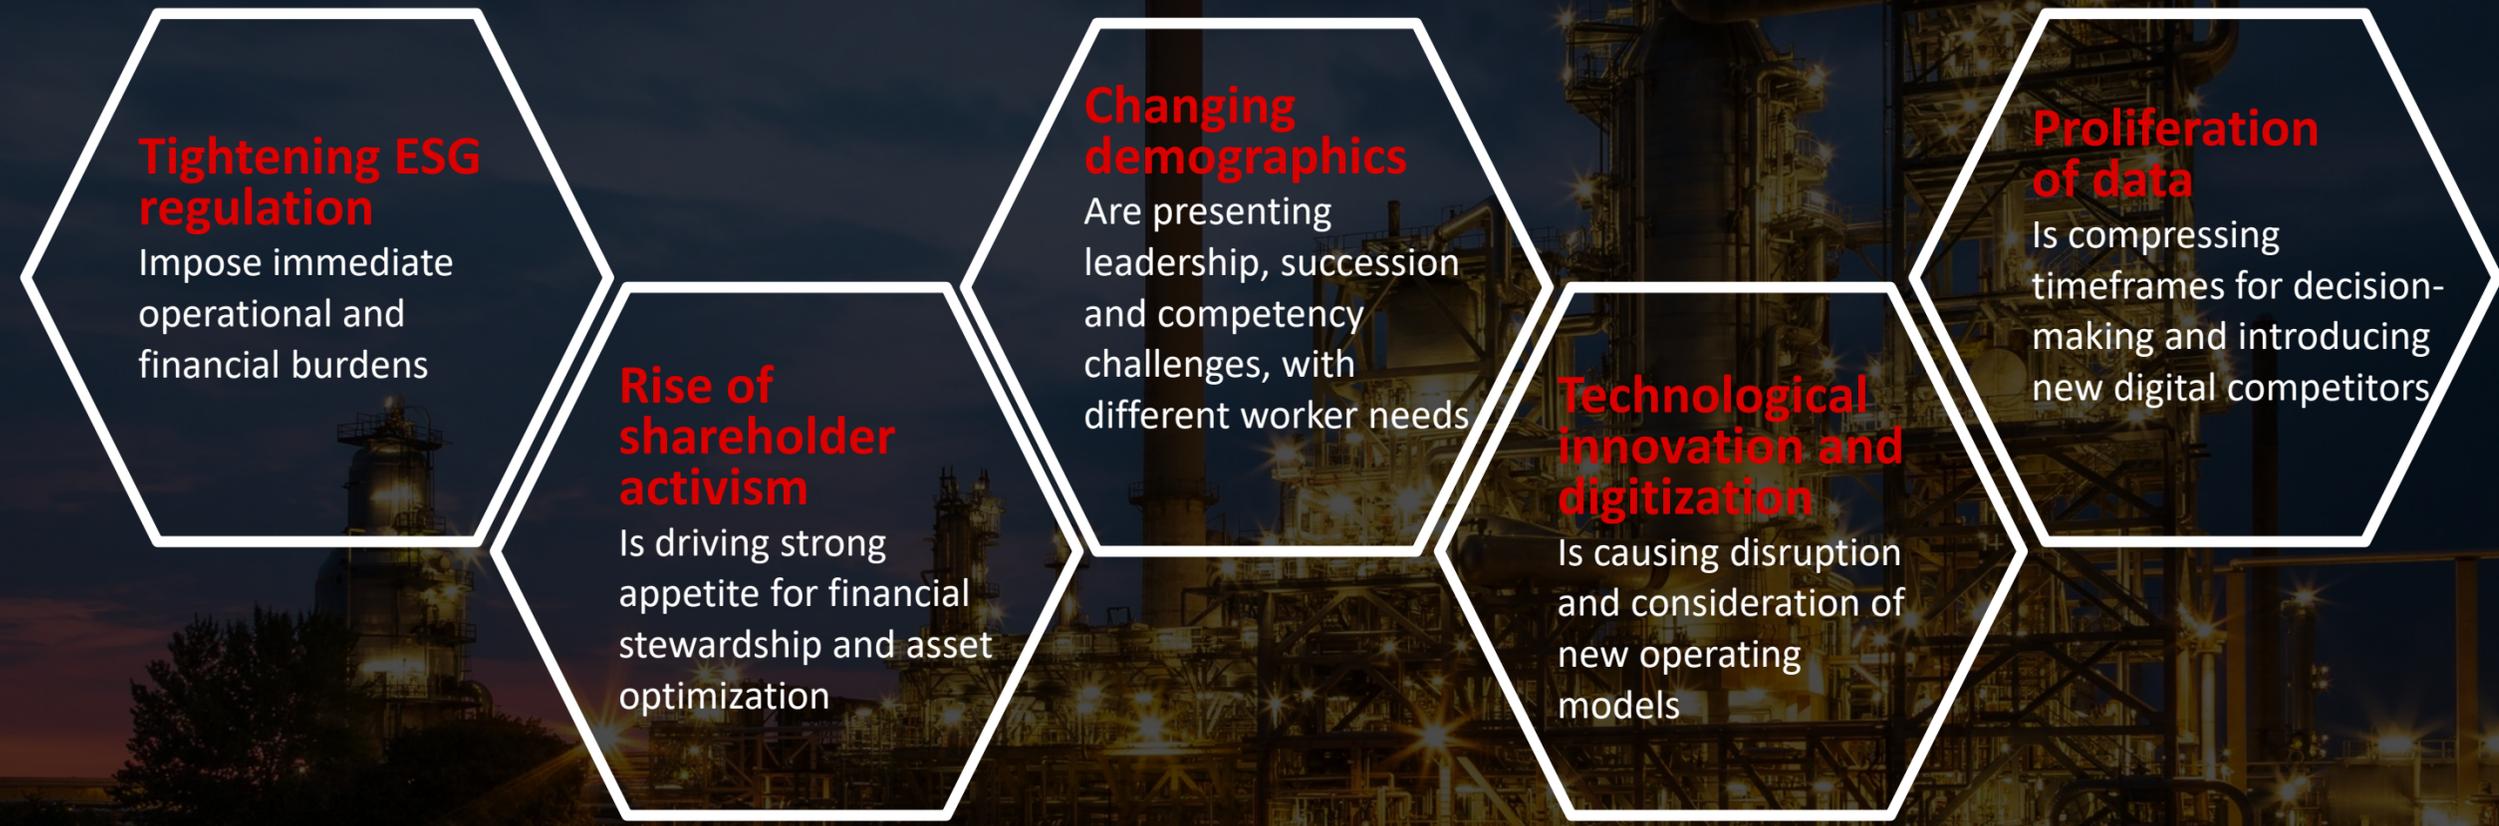

IMPLEMENT

REALISE

INDUSTRY'S CHALLENGES DRIVING DIGITALIZATION

MAINTAINING THE STATUS QUO IS NOT ACCEPTABLE

KEY SUCCESS FACTORS TO DIGITAL TRANSFORMATION

Leadership commitment

- Honest assessment of the current state
- Leading from the front
- Investment aligned for results

Look beyond the hype

- Peer comparison and observation
- Is proven and tested good enough

Measure and build momentum

- Measure the performance of every digital initiative
- Actively promote the activities throughout the company

Deepen the digital organisation

- Recruiting digital natives
- Altering the culture to attract them
- Establishing digital acceleration centres and practices

Integrate across the value chain

- Digitalize not just core operations but the entire supply chain
- Deliver customer-centric innovation

HYPERION IS **READY NOW** TO HELP DRIVE YOUR DIGITAL TRANSFORMATION

I. UNMATCHED PERSPECTIVE & EXPERIENCE

Deep and decades-long process industry expertise, independent and unbiased experience with best of the tech industry.

II. UNIQUE DEPTH & BREADTH

Delivery of large complex and diverse solutions across nearly every aspect of operational efficiency, safety and sustainability designed for the needs and scale of the process industry.

III. PROVEN SOLUTIONS

Tested methodologies and used in multiple facilities-drop-in solutions ready to drive impact and help industry reach commitments faster. Our approach delivers tangible and sustainable impacts in term of safety, production and cost reduction (10% to 30% of OPEX)

IV. INVESTED WITH YOU

We take the time to understand your strategic goals and tailor our approach to align with your business objectives reduce risks of failure, enabling the transformation to achieve the outcomes that matter most to your organization.

V. THE PEOPLE TO TAKE YOU ON THE JOURNEY

Hyperion's talented teams have been delivering complex digitalization projects to first tier customers around the globe every day.
